ABOUT COMPANY

17 Years and we are still super-charged!
It took us time, technology and tenacity to create impactful solutions with PVC products and their designs. RAMA PVC Laminates is in the forefront of innovations of Real Plast. Blending incredible designs with Real Plast, Eva Bond and Decor Plast into creative solutions-based applications; our world-class products exude confidence of 17 years.

Our great state-of-art manufacturing unit at Tajpur, Gujarat is incorporated with updated infrastructure, revolutionary imported machinery, highly skilled employees assisted with quality-control and process- driven systems of manufacturing and distribution.

These are mainly seen in our primary focus products like PVC laminates, PVC Flexible UV Sheet, PVC 3MM HPL Sheet and 3D Panel. All our products are recyclable, sustainable and durable.

Bringing all these together, we ensure that our customers expectations are highly matched. Contemporary trends and design applications gives us better leads on the customer perspectives which we have always been able to fulfill sustain-ably.

VISION

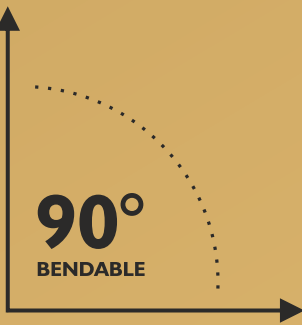

"Experience makes sense of our past, brings in clarity of purpose for today and creates sustainably lasting vision for future."

With highly cohesive and optimized value chain we have the ever impactful vision to "create a better tomorrow everyday" for our customers and employees. We, firstly are aiming to be the best version of ourselves every year. Secondly, we are looking at the futuristic vision of a better world with high usability of our products that are inherently designed to be environmentally friendly.

MISSION

Everyday is a challenge to do our best and until that isn't done - we never rest. At RAMA PVC Laminates we believe in creating value everyday in every order and communication. This then gets added up and corroborates with our vision to excel. Each day for us, hence, is a mission into being the best in each sphere of our work.

NATURE'S CHARM

Softtouch Series

Softwood collection anti-fingerprint anti-bacterial PVC laminates are a modern laminate interior option that combines the aesthetic appeal of wood with functionality. Made from polyvinyl chloride (PVC), these laminates are affordable, durable, easy to maintain, and water-resistant. They come in various designs and colours, including softwood designs like forest greys, whites and aqua apart from browns. The anti-fingerprint coating reduces fingerprint visibility and inhibits bacteria growth on the floor surface.

TECHNICAL SPECIFICATIONS

PRODUCT INFORMATION

Thickness	:1.2mm ±0.05
Standard Sizes	:8ft x 4 ft
Range	:These Elegant PVC Laminates come in a wide range of design, colours and finishes.

CUSTOMIZED SIZES AND SHADES CAN BE DEVELOPED ON REQUEST.

Adhesive : These laminates are easy to apply with the standard laminating system, including most of the conventional water and solvent based adhesives normally used with plastic laminates. We DO NOT recommend the use of heat activated adhesives.

Lamination : Proper substrates must be used and careful. bonding procedures must be observed. Substrates should be of good quality plywood, PVC Board high density particle board, or high quality fiber board. The face of the substrate must be smooth and free of grease, wax, dust, chips and other foreign matter. We DO NOT recommend any kind of coat like PU base, melamine, lamination (wax) on our products.

Cutting & Machining : These laminates can be cut by using sharp diamond blade cutter only. We recommend the use of smooth file to feather all corner edges.

Bending : Kindly use V-Groove cutter to bend the sheets at 90°. For any difficulty please contact RAMA.

Maintenance : Any cleaning agent containing acids, alkalis or abrasive should NOT be used to clean the laminate. Exposure to sunlight should be avoided.

Note : RAMA warrants that all its products are free from manufacturing defects and perfectly fit for use in normal conditions. In case of any claim, the liability the company's is however limited to the cost of the product only. There may be batch to batch colour variation. The sample swatches only represent the designs, colours and finish. They do not represent the actual thickness.

KINDLY REMOVE THE PROTECTIVE FILM WITHIN 7 DAYS OF INSTALLATION OF LAMINATES.
